SMART. VERY SMART.

Congratulations! The product you have just purchased offers you exceptionally high quality reception. Please read the following instructions before using the indoor aerial, and retain these instructions for future reference.

Instructions for use:

1. Connect the cable of the aerial to the television aerial socket. If there is a video recorder already installed, connect the cable of the aerial to the aerial socket of the video recorder.

2. Use the instruction manual supplied with your television set to tune to the different channels. Turn the UHF loop around until the optimum reception is obtained.

3. To obtain the best reception for VHF signals, vary the length and angle of the telescopic aerial.

NOTE: The base of the aerial has four rubber pads which provide stability and which are ideal for all surfaces.

Disposal of your old product
Your product is designed and manufactured with high quality materials and components, which can be recycled and reused.

When this crossed-out wheeled bin symbol is attached to a product it means the product is covered by the European Directive 2002/96/EC

Please inform yourself about the local separate collection system for electrical and electronic products.

Please act according to your local rules and do not dispose of your old products with your normal household waste. The correct disposal of your old product will help prevent potential negative consequences for the environment and human health.
